

## LORRAINE J. HWANG

### **Professional Preparation:**

University of California, Berkeley	Geophysics	BA, Honors, Phi Beta Kappa, 1985
California Institute of Technology	Seismology	MS, NSF Graduate Fellow, 1987
California Institute of Technology	Seismology	PhD, 1990
University of California Extension	Financial Accounting	2006
University of California Extension	Management Accounting	2007
University of California Extension	Foundations of Public Policy	2009

### **Appointments:**

2012-present	Associate Director, Computational Infrastructure for Geodynamics, University of California, Davis, CA
2007-2012	Research Coordinator, California Institute for Energy and Environment, University of California, Berkeley, Sacramento, CA
2007	Implementations Manager, Revionics, Granite Bay, CA
2005-2006	Consultant/Analyst, Network for Earthquake Engineering Simulation, Davis, CA
2001-2005	Senior Implementation Manager, Decision Academic Graphics, Ottawa, ON
2001	Project Analyst, University of California, Davis
2000	Project Manager, Community College Foundation, Sacramento, CA
1993-1994	Visiting Assistant Professor of Physics, Claremont McKenna College
1991-1993	Research Associate (National Research Council Graduate Fellow), United States Geological Survey, Pasadena, CA
1993	Network Analyst, California Institute of Technology, Pasadena, CA
1985-1990	Graduate Teaching Assistant, Graduate Research Assistant, California Institute of Technology, Pasadena, CA
1982-1986	Physical Science Aide, United States Geological Survey, Menlo Park, CA

### **Synergistic Activities:**

- **Project Management:**
  - Manage day-to-day operations, project planning, outreach and strategic initiatives for the Computational Infrastructure for Geodynamics, an NSF supported cyberinfrastructure facility with over 70 national and international member institutions and its collaborations and partnerships including initiatives in high performance computing and software citation.
  - Provide project management and program development elements for Electric Grid Research and West Coast Carbon Sequestration Partnership (WESTCARB) working with partners across multiple private, public and governmental institutions contributing to program planning, project development and implementation, budget and schedule tracking, reporting, technical assistance, public outreach, and coordination. Serve as program lead for WESTCARB Regional Characterization coordinating and managing over \$5 million of research for geologic characterization and seismic risk for carbon sequestration. Develop statements of work and budgets, and review deliverables. Manage contract and budget changes. Develop science program for next project phase identifying research and principal investigators.
- **Professional Service:** WESTCARB representative to the Interstate Oil and Gas Compact Commission Task Forces on Carbon Capture and Geologic Storage, and on Offshore CO<sub>2</sub> Storage – Legal and Regulatory issues; participates on the Technical Advisory Team for the California Carbon Capture and Storage Review Panel. Member of FORCE11 Working Group on Software Citation, CodeMeta, and WSSSPE3 & WSSSPE4 organizing committee.
- **Innovations in Teaching and Training** – Worked in conjunction with UC Berkeley to redesign portal for the online WESTCARB Carbon Atlas for research and outreach/education. Initiated and run CIG webinar series which draws from a pool of experts from mathematicians, to computer scientists, and to geoscientists, to bring together a cross-cutting community of faculty, students and researchers to both inform and disseminate knowledge on the tools and methodologies employed to further the study of problems in geodynamic.
- **Industry Collaborations** – Projects managed by California Institute for Energy and Environment included collaborations with EPRI, PG&E, SDG&E, SCEC, CAISO, PNNL, BPA & Southern Company as contractors or stakeholders providing in-kind support.
